

ANAND M S

SOFTWARE DEVELOPER

9072043008 | anandms047@gmail.com | Karoor Nagar, Kodungallur, Thrissur, 680664 | an4nd47.github.io

PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student with a strong foundation in software development and full-stack technologies, proficient in HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, Python, MySQL, Git, and GitHub. Passionate about building responsive, scalable web applications and integrating AI-driven solutions to solve real-world problems. Seeking a Software Developer role to contribute technical skills, grow as a developer, and deliver impactful software solutions.

SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, Python

Tools & Platforms: MySQL, Git, GitHub, Figma, DaVinci Resolve

Core Competencies: Web Design, Front-End Development, Backend Python Development, UI/UX Design Thinking, Problem-Solving, Responsive Web Development

Development Practices: Familiar with Agile/Scrum workflows and version control (Git/GitHub); adaptable to CI/CD-based development environments

EXPERIENCE

Web Developer — AIAfiya Med Medical Supplies

2026

- Developed and deployed the company's official responsive website from the ground up, taking it live for public use.
- Designed a modern, accessible user interface, improving visual consistency and ease of navigation for site visitors.
- Built responsive layouts and interactive components using HTML5, CSS3, JavaScript, and React.js, ensuring smooth performance across desktop and mobile devices.

Joint Secretary — ISTE Student Chapter

2025 – 2026

- Coordinated technical events, workshops, and student engagement activities throughout the academic year.
- Collaborated with the executive committee to plan and deliver club initiatives and competitions.
- Strengthened leadership, communication, and project management skills by managing timelines and cross-team coordination for club activities.

Web Developer — Alufab Enterprises (uPVC Fabrication Company)

2026

- Developed the company website using React.js, showcasing its uPVC fabrication products and services to customers.
- Built reusable, component-based UI elements to create a clean, navigable browsing experience.
- Implemented responsive design so the site performs consistently across desktop and mobile devices.
